**IFALPA Vision Statement**

On 8th February the International Federation of Airline Pilots Associations (IFALPA), the global voice of airline pilots, issued its Vision Statement entitled *The Future of Air Navigation*.

This document considers ICAO's role and the role of governments; the roles of the air navigation service providers and that of the aviation industry.

Global business of air navigation, worldwide procedures, ATM and flow management are also considered.

Furthermore, the document introduces environmental and technological requirements as well as those regarding legal and operational matters.
