INC15

On 24th to 26th February 2015 the Royal Institute of Navigation is hosting INC 15 at the Manchester Conference Centre.

This International Navigation Conference will bring together experts from around the world to discuss the latest technological developments and issues across all the domains of modern navigation: land, sea, air and space. A programme of keynote presentations and workshops will cover areas such as GNSS and Galileo, indoor positioning, autonomous transport, security and resilience of navigation in the world of cyber-attacks, and new quantum technologies.

Conference call for papers has now been extended and is open until 24th October 2014. Readers interested in submitting a paper on one of the topics outlined above are invited to use the first link below.

Exhibition and sponsorship packages are also available and here visitors are invited to contact: conference@rin.org.uk for more details or use the second link below.

Sally-Anne Cooke is available by telephone on +44 (0) 207 591 3135 or by e-mail at: conference@rin.org.uk for suggested twitter notices and to discuss partnering us in promoting this conference.

For more information, and to register, readers are invited to use the third link below:
